

Greetings from the Editorial Board,

Glad to take charge of JOJS by TNOACON 2023.

Thanks to Prof V Singaravavelu and Dr CJ Ravi, office-bearers and members of TNOA who bestowed confidence in us. Our TNOA is a vibrant association with many international orthopedic legends as its members.

Publishing a surgeon's work shares his knowledge with the rest, ultimately helping to improve patient care. Sharing helps in caring the patient. Publishing makes the surgeon's mark permanent in the pages of history. Besides that, publishing is mandatory in public and private hospitals.

This journal issue carries about 12 scientific articles, which you will find interesting and resourceful. We, the members of editorial board, are ready to lend our helping hand along with Jaypee Brothers Medical Publishers (P) Ltd. in any issues related to JOJS.

Kindly submit more manuscripts to make JOJS internationally most sought after orthopedic journal. Together we can make it.

Long live JOJS!
